- Making any kind of demonstration or being involved in political, religious or racial propaganda at any European Games venue or associated areas during the period of the Games.

## 1.10. Late Athlete Replacement (LAR) Policy

The deadline for Sport Entries of participating Athletes for MINSK 2019 is 20 May 2019.

However, where urgent medical problems arise, or in other exceptional circumstances that are assessed on a case-by-case basis, the EOC may permit permanent replacement of one (1) Athlete with another only in the same sport, discipline and event.

During the European Games, it is the policy of the EOC that P-accreditations are not available.

Replacement of an Athlete can only occur after consultation with the relevant International Federation (IF) and/or European Federation (EF) and, when deemed necessary by the EOC, an EOC medical expert.

Replacement of Athletes due to Medical reasons after 20 May 2019 and up to two (2) hours prior to the Sport Technical Meeting, or weight draw as appropriate, is possible, providing:

- The replacement athlete is entitled and qualified to take part in the European Games as stipulated in the Qualification systems issued in 2018 and regularly updated by the EOC and MEGOC;
- No doping control issues are pending concerning the replacement Athlete;
- The NOC of the replacement Athlete has to apply for accreditation for the Athlete prior to the application for accreditation deadline (28 February 2019).

Non-Medical replacement of Athletes is possible after 20 May 2019 and up to 24 hours prior to the Sport Technical Meeting, or weight draw as appropriate.

NB: Deadlines for Medical and Non-Medical replacements are different.

For Non-Medical replacements, in order to keep changes at a manageable level and support a sustainable level of resourcing within the MEGOC Sport Entries team, a limit on changes to an NOC's delegation has been put in place.

Each NOC shall be allocated a quota for Non-Medical replacements based upon the NOC's overall number of Athletes.

Number of Athletes	Quota for Non-Medical LAR
From 1 to 10	1
From 11 to 20	2
From 21 to 50	5
From 51 to 100	10
From 101 to 150	15
From 151+	20

Following confirmation from the MEGOC Sport Entries team that the submission procedure has been correctly completed an application for LAR shall be approved by:

- Technical Delegate for the relevant sport or discipline, on behalf of the EF;
- Designated representative of the EOC.

The following additional procedures must also be carried out in order for one Athlete to be replaced by another:

- a) The relevant NOC must fill out an Official Athlete Replacement Form for the Athlete being replaced and the replacement Athlete.
- b) The relevant NOC must add the new Athlete's details to the Eligibility Conditions Form which they already hold and, when required, to the Sport Entry Form for the replacement Athlete.
- c) The accreditation card of the replaced Athlete must be withdrawn.

Following the Athlete replacement, the accreditation card of the replaced Athlete shall be cancelled. Procedures relating to the replaced accreditation card will be released in due course.

Once a replacement Athlete has been approved, that individual Athlete cannot be replaced for Non-Medical reasons.

All documentation and queries regarding this matter should be sent by email or submitted in person to the MEGOC Sport Entries department:

- In AVL – SIC;
- By email: [entries@minsk2019.by](mailto:entries@minsk2019.by).

The MEGOC Sport Entries by Office will forward all received queries to the MEGOC Accreditation team and to the EOC accordingly.

It is effective:

- For Non-Medical replacements – from 20 May 2019 until up to 24 hours prior to the Sport Technical Meeting or weight draw as appropriate for that event;
- For Medical replacements – from 20 May 2019 until up to two (2) hours prior to the Sport Technical Meeting, or weight draw as appropriate for that event.

Waiver:

The above-noted policy is subject to further change by the EOC for exceptional circumstances.

## 1.11. Doping Control

MEGOC is committed to delivering a world-class Doping Control Programme during MINSK 2019. Under the authority and direction of the EOC, the MEGOC Doping Control Programme will ensure the integrity of sport is upheld and protect the rights and health of the Athletes. The Union Cycliste Internationale (UCI) Anti-Doping Rules will be respected.

The EOC Medical and Anti-Doping Commission in collaboration with the UEC is responsible for determining in advance the distribution and number of doping controls to be carried out throughout the Games period.

The EOC has the authority to test Athletes for substances and doping methods (both urine and blood) prohibited by the World Anti-Doping Agency (WADA) anytime and anywhere from the date of arrival in AVL and up to the end of the competition.

All analyses of samples will be performed at the WADA-accredited laboratory in Austria.

The selection of Athletes may be targeted, random, based on the Athletes' final position in competition as well as intelligence or the UCI Anti-Doping Rules.

MEGOC has appointed NADA Belarus as the operational delivery partner for the Doping Control Programme. As the operational delivery partner, it will be responsible for sample collection, secure chain of custody and analysis at the WADA-accredited laboratory.

Further details on the Doping Control Programme and procedures at the European Games will be available in MINSK 2019 Medical, Anti-Doping and Pharmacy Guide which will be provided in February 2019. Printed copies of the Guide will be distributed at the EOC Medical Commission meeting.

If medical staff arrive after the due date, copies of the Guide can be collected at the AVL Polyclinic.

Athletes selected for doping control will be notified in person and escorted to the Doping Control Station (DCS) by a Doping Control Chaperone as soon as possible after the former have finished competing. It is the responsibility of the Athlete to remain under continuous observation of the Doping Control Chaperone after notification. The notified athlete may invite a team representative or team doctor to DCS along with them.

Medal Ceremony staff will lead Athletes to the podium for the Medal Ceremony and advise them with regard to the procedures that the Athletes will need to follow.

Flags, signs, mobile phones, cameras, electronic devices, bottles, items of sport equipment, items with political statements, sunglasses, headdresses and EGIAC will not be allowed on the podium. If any Athlete is in possession of any of these items, the latter be handed in to the Medal Ceremonies Manager for the duration of the Ceremony.

During the Medal Ceremony, in addition to the medals, MEGOC plans to present the winning Athletes with a bouquet of flowers.

Gold medallists can ask other medal winners to join them to share the joy of victory and take a picture together.

After the Medal Ceremony has finished, Athletes will be asked to move to a second location (Hotel 'Europe' or a Point on Oktyabrskaya Square) in order to provide the media with additional photography opportunities. This will take no more than one (1) minute. After all photographs have been taken, Medal Ceremony staff will lead the Athletes to the Broadcast Mixed Zone.

If any Athlete is chosen for doping control, he/she will be escorted through the Broadcast Mixed Zone by a Doping Control Officer or doping control chaperone and will then be chaperoned to DCS.
